

# Brief

Office collection

## Brief

Brief is an innovative product with an anatomically-designed seat, backrest and armrests. Steel structure. Padding of moulded polyurethane foam. Base comprised of five spokes, in black or polished aluminium finish. In the adjustable model, the height of each arm can be independently controlled, and the user can set the height, varying within a range of 6 centimetres. The chair back is also equipped with a mechanism that permits height adjustment of up to 6 centimetres, with respect to the seat. Fully rotating castors are self-locking, and come in a soft-surface finish. They are also available upon request in a hard-surface finish, or without the self-locking mechanism, in a hard or soft finish. The model is also available with glides, which lowers the height by 2 centimetres. Upholstery is in leather from the Pelle Frau® from the Color System. Upholstered arms are hand-sewn.

**Features** Seat height adjustment. Backrest height adjustment. Armrest height adjustment. Synchronized and reclining movement. Control of the range of motion in the back and seat. Rotation.
